Receive Ten **Tons of Waste** Paper in Drive

Grade and High School Students Assist in Salvage Work

Ten tons of waste paper were News of the vage headquarters in the drive conducted in Antioch last week, C. L. Kutll, salvage chairman, reported yesterday afternoon.

A large semi-trailer truck load of 14,640 pounds of paper was sent on its way to the mills, while approximately three tons are still on hand, awaiting a later shipment.

Antioch Grade school students collected more than 8,000 pounds Friday afternoon.

F. F. A. Continues Work The Future Farmers of America members at Antioch High school have. 2,000 pounds on liand and are con-

tinuing their drive. The balance of the paper (about ave tons), was turned in by citizens to the Soldiers' Relief fund, Kutil

sen's Corners) looked up Ray Winship the yether day to say "howdy." Sisson used to be superintendent at Winship's printing plant in Chleago around 1920 or '21.

H. B. Gaston, **Antioch News** Editor, Dies

Newspaper Publisher for 40 Years Succumbs to Long Illness

Homer Byron Gaston, 60, for 17 years publisher and editor of the Antioch News, and a newspaperman for more than 40 years, passed away at Woodstock, Ill., Tuesday morning

at 1:30 o'clock. He had been in ill health for the past year. In December, 1042, he underwent a gallstone operation at the Mayo clinic in Rochester, Minn. and by last spring had recovered sufficiently to return to the News office.

In July, however, he again became ill, and his health gradually failed. During the past several weeks he had been under medical care in Woodstock, at the hospital and at the home of relatives.

To the very end, he retained his keen interest in the affairs of the community and of his country, at large, and throughout his illness frequently gave directions from his sickbed with regard to the writing of articles or editorials in which he was particularly interested.

Made Many Friends Heart Ailment Although quiet and unostentations in his personal ways, he made and held many friendships ranging from Although quiet and unostentatious held many friendships, ranging from . those who might be considered as among the influential and powerful, to those in the simpler and humbler walks of life. And it could not be said that he valued any the more highly, or the less, for either circum-

stance.

The Antioch News is being issued this Thursday, in accordance with his request, but the News office will be She leaves to mourn her passing closed throughout the day Friday. two sons, George Hirschmiller, at Business houses of Antioch will be closed from 1:30 to 3:30 o'clock Friing near Kenosha; two sisters, Mrs. day afternoon in tribute to his mem-

Free America - or

"Government Take All"

Typical of the courage that brought him out of the Midwest to smash New York City rackets and twist the Tamany Tiger's tail was Governor Thomas E. Dewey's plain warning, sounded at a CIO convention but for the benefit of all of us.

"Once the principles of a free society are abandoned," the Governor asserted, "we will have turned our backs upon the very things for which Americans are laying down their lives today.

"If we subscribe to the theory that Government in peacetime, as in wartime, must be the prime mover in our economic life, then inevitably Government will take

"It will be the ruler not merely of our economic lives but of our social and civic lives. Under these circumstances Government ceases to be the servant of the

people and becomes the master." create business, produce goods and provide employ not just gulp and go, but where the company and conment must not be stifled after the war. Dewey warned.

"The simple truth is," he declared, "that we must make up our minds that we are going to have a free society here in these United States and resolutely set courage when times are hard. out to create the conditions under which it can exist."

Congress has decided to follow the best military judgment in the matter of drafting fathers. The whole Mrs. Martin Jerde. mediate issue of whether the family provider should be Pagel and Charles Pagel attended urday evening. discussion has had a positive value far beyond the imtaken into the Army or not. It has focussed our attention on the importance of homes in the light to preserve at Salem, Monday,

able democracy. The home is the social unit where parents, Mr. and Mrs. Paul Yoss. ren Behrens, Carl Salerston, Frank people learn earing for each other and responsibility. people learn earing for each other and responsibility Without family life to train and hold them together, we is in charge of the Wertz and Son oil a lodge to stay in while there. get the anarchy of every man for himself or the regimentation of every man for the state.

A look at the divorce and juvenile delinquency. records, however, shows that American homes began to break up long before there was any talk of drafting Magadanza, New London, and Mrs. fathers. American fathers have always been good wage Ray Wertz, Salem. earners and providers, but there is more to fatherhood than that. The real issue is not only what homes will do when fathers go off to war, but what those fathers do who still have the chance to live with their families.

Senator Harry Truman of the War Investigating Committee says that "raising a family always has and always will be the biggest job any one can tackle."

The father, as head of the family, must provide its fun as well as its funds, its character as well as its eash. He should be a working partner with mother in providing a home where the family hide nothing from one another and help one another to give their best. Where Enterprise—based on the spirit that leads men to there is plenty of laughter and love. Where meals are versation are as good as the food. Where the welcome sign is always out. Where the neighbors can drop in to borrow a cup of flour and find real friendship. And

No father need wait till his number comes up to be drafted for this job. Under such circumstances the Circular needs to be vigilant lest

Marie Hamin.

Miss Laura

Miss Laura rather than being absolute-taright.
The teaching of Scripture on this matter is very plain.

I. Benesty and Fair Dealing (Exod. 20:15; Lev. 10:11, 13). The very commandment against stealing implies that men have a right to that which they have made, carned, or saved. If no one had property rights there could be no stealing. Some of our modern is ma

deny such rights, but their reason-ing is clearly not biblical or Chris-tian. Thou shalt not steal" forbids ev-in South Bend, Ind., as guests of mit-and Mrs. Gordon Blumenschein, and little Joyce Blumenschein who has been with her grandparents for a few cludes more than robbery or ordi-

Rary stealing.

It relates to every kind of false dealing with another, such as oppression or the withholding of just ground a week ago while getting out ground a week ago while getting out ground a week ago while getting out

Perhaps we ought to be more spe-her work for the Public Service Co. at their Antioch office. Stealing includes such things Mrs. Daisy Riney and her daughter, Mrs. Maude Milmacky, of Neguancety, from the cash drawer, takgoods from the stock with which ene's own, "lifting" material out of tives in Connecticut.

another man's book without credit, Mr. and Mrs. Haro contracting debts which one can measures, adulterating food or othar material, "watering" milk for sale, selling worthless stock, dodging Lee Nielsen, younger son of the Fredtaxes or lying to the tax assessor, eric Nielsens of Lake Villa to celeusing a slug instead of a nickel the telephone to escape proper

One might add gambling (which is taking another man's property by skill or by chance), making an unduly lerge profit on the labor of an-other, making money out of the sorrows and failures of others, etc. To be honest means to be fair—and that has broad implications.

11. Recesty and Restoration (Luke

Warren C. Henslee, Pastor.

CHRISTIAN SCIENCE CHURCHES

"Mortals and Immortals" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, November 14.

The Golden Text was, "If ye live after the flesh, ye shall die; but if ye through the Spirit do mortify the deeds of the body, we shall live" *Rom. 8: 13).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "This I say therefore, and testify in the Lord, that ye henceforth walk not as other Gentiles walk, in the vanity of their mind . . That ye put of coocerning the former conversation the old man, which is corrupt according to the deceitful lusts; And he renewed in the spirit of your mind; And that ye put on the new man, which after God is ereated in righteousness and true holiness" (Eph. 4: 17, 22-24).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "It is only by acknowledging the supremney of Spirit, which annuls the claims of matter, that mortals the claims of matter, and find the can lay off mortality and find the indissoluble spiritual link which establishes man forever in the divine likeness, inseparable from his erentor" (p. 491);

Fungus Causes Smut

Corn smut is caused by a fungus which overwinters as spores (the black sooty powder) in the soil or in discosed corn refuse. Certain varletles of early sweet corn are partleularly susceptible to smut. Most later varieties are much less susceptible. Experiments have shown that smut bolls can be consumed by eattle in large amounts with no ill effects. In some regions, the young smut bolls are even eaten by humans.

WEEKLY NEWS ANALYSIS

Allied Drive Through Italy Is Slowed By Hard Fighting and Stout Defenses; U. S. Campaign for Rabaul Threatens Entire Jap Southwest Pacific Position

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis, and not necessarily of this newspaper.)

Attention in the South Pacific is focosed on the great Jap naval base of Rabaul on New Britain Island; which U. S. air forces have pounded from New Guinea on the west and the Solomons on the east,

SOUTHWEST PACIFIC:

Focal Point

Two years ago Johnny Doughboy never heard of Rabaul.

Today, this great port on New Britain island is the focal point of the U. S. drive in the Southwest Pacific, with hundreds of bombers souring over it to dump tons of explosives on the ships lying in its waters and the planes parked on its

many airdromes. as well pull up their stakes in the tions. area to the northeast of Australia. Today, not only does it block any army picked its way slowly over the general move the U.S. might make northward to the Philippines and Japan, but it also acts as feeder holding it off on the flat coastal point for barges supplying New stretches of the Adriatic. Guinea and the Solomons.

Using such barges which can car- Shipping Gains ry from 35 to 150 troops, the Japs' As a result of Italy's surrender, reinforced their embattled forces on the Allies have come into control Bougainville island, their last strong- of 170,000 tons of merchant shiphold in the Solomons from which U. S. Doughboys fought to expel

HITLER:

'Fight to Finish' Declaring that "the last battle will;

bring the decision, and it will be won by the people with the greatest Hitler broadcast to the world Getmany's resolution never to give in at

the 11th hour. But speaking in London one day later, Prime Minister Winston Churchill said Germany was dnamed to defeat in 1944, in a campaign that will be the most sovere and eastly in

life experienced by the Allies.

In 1918, Hitler said: "Germany's final collapse was due less to force of arms than to due less to force of arms than to destructive propaganda . . . The people were sim e . . . The leaders were weaklings . . . ' Claiming that Nazi war production had risen despite persistent bombings, Hitles said civilians suffered most from Allied air raids, but vengeance would be wreaked on England. ". . . We cannot reach America . . ." he said.

Because of their disturbing effect on enemy morale, Allied bombings are one of the prime forces against Hitler's regime, Churchill said. "The back of the U-hoat campaign has been broken," he asserted.

WORLD RELIEF: Planned by Allies

To rebuild shattered Europe after the war and relieve the privations of its people, 1 United Nations signed an agreement establishing an organization to conduct the work.

Supplies needed for the undertak-ing will be contributed by participating nations, and of the 46 million tons of food, seed, fuel, clothing, raw materials, machinery and medical items that will be required during the first six months after the war, the U. S. will furnish 912 mil-

Money required for U. S. participation must be appropriated by congress. Plans call for putting the distressed people back on their feet, then gradually withdrawing support as they resture their own economy to the prewar levels.

ITALY:

Fight for Main Road

With their artillery commanding the mountain heights, German troops fought doggedly to seal off a pass leading into the long, level corridor

Complicating the Fifth army's task to break through, was steady rain, which muddled the country. A succession of German counterattacks were designed to disturb U. S. and British groupings for concen-With Rabaul lost, the Japs might trated assaults against Nazi posi-

To the east, the British Eighth mountainous central sector, with strong German armored formations

ping and 149 warships, besides many

Adding to this trip-hammer blow against the Axis sea strength, was the destruction of \$27,000 tons of enemy shipping in the Mediterranean,

mostly by submarines.
White the enemy was being lambasted; 22,526,485 tons of Allied merchant shipping reached North Afriean ports, including Casablanea. Losses in action totaled 11/2 per cent of the total tenange.

AGRICULTURE:

Less Cotton

On the basts of conditions prevailing November 1, the department of agriculture estimated a 1943 cotto erop of 11,442,000 bules of 500 pounds each, compared with 12,824,000 bales last year, and a 10-year average of 12,474,000 bales. Yield per acre was set at 253.4

pounds of lint cotton. The average last year was 272.5 pounds, and for 10 years, 217.0 pounds.

For Texas the 1943 crop was estimated at 2,825,600 bales; Mississippi bama. 950,000; Georgia, 845,000; Louisiana, 745,000; South Carolina, 700.000; North Carolina, 610,000; Tennessee, 500,000; Oklahoma, 375,-000; California, 380,000; Missouri; 305,000; Arizona, 141,000; New Mexico, 116,000; Virginia, 25,000; and Florida, 16,000.

U. S. Fat Supplies

About 44 pounds of fats and oils will be available for civilians during the next year, compared with 47 pounds in 1943, the War Food administration announced in revealing that total U. S. needs will approximate 11,700,000,000 pounds.

Of this vast amount, the U.S. will produce 11,300,000,000 pounds, or 10 per cent of the total, and 1,100,000,000 pounds will be imported.

Of the 8,000,000,000 pounds allocated for food, civilians will get 70 per cent of the supply, while the army will receive 9 per cent. The remaining 21 per cent will be divided between exports, lend-lease and requirements for feeding liberated

Industrial users will be allotted 3,600,000,000 pounds, with 2,100,000,-000 pounds going into soap and glycerine production. About 600,000,000 pounds will be allocated for civilian and military paints, varnishes, lino leums, oil-cloth and other conted fair ries. The remainder will be used for lubricants, printing inks, leather and textile processing.

HIGHLIGHTS . . . in the week's news

and commodities broke on rumors of pence with Germany. Shares on the New York market fell from one to ten points before rallying. Low grade bonds dropped sharply. Wheat went down two cents o bushel, wonletwo to three cents, cotton \$1.35 a bale. Two billion dollars of "paper valuation" were lost in the sharp decline.

PEACE SCARE: Stocks, bonds | POST OFFICE: Revenues of the and commodities broke on rumors postal department have passed the

LABOR:

Lewis Sets Example

John L. Lewis' success in obtnin-John L. Lewis' success in obtaining a daily wage increase of \$150 for his United Mine Workers seemingly has shaken other labor leaders from their reluciant compliance with the administration's "Little Steel Formula" for holding pay boosts to within 15 per cent of 1041

Representing 900,000 members, the executive committee of the CIO's United Steel Workers decided to demand higher wages, with the exnet extent yet to be determined. It was in awarding the steel workers a raise of 44 cents daily two years ago, that the War Labor board developed its holly contested wage for-

While the steel workers made their move, spokesmen for 1,100,000 non-operating railroad union employees rejected the government's offer of graduated pay increases ranging from 10 cents an hour for all wages less than 47 cents an hour, to 4 cents, an hour for wages of 97 cents and over per hour,

Oppose Workers' Draft

Solution of manpower shortages in different areas through co-operative efforts of labor-management-agriculture committees instead of draft legislation, was recommended by union, business and farm leaders in a special report to War Man-power Commissioner Paul V. Mc-

To get community programs operating, it was recommended: 1, There be surveys of manpower supplies; 2. Determination of local urgency for products and services; 3. Surveys of needs of employers; 4. Controlled flow of available manpower to shortage areas.

The report stated that large num: bers of workers have yet to be transferred to essential industry. Longer working hours in some instances, and increased recruitment of wom-en workers, also were suggested.

Intent on flying, Emil Gose and John Gander were sworn into the army air corps at Hamilton, Mont.

RUSSIA:

Near Europe

On the northern front. Russian troops stood within 20 miles of the old Polish border, while it was reported that the Germans were mo-bilizing all able-bodied men in Estenia and Latvia to help in a last ditch fight for these states command-

ing the Baltic sea route. Reds moved on the last railroad linking German armies in the north with those to the south.

On the southern front, German forces still held their ground at Krivoi Rog and Nikopol, guarding their general retreat from the big Dnieper river bulge. Near the mouth of the Dnieper on the Black sea, the Reds were only about 100 miles from Rumania.

Some 75,000 Nazi troops holding. the strategic Critnea peninsula which guards the Black sea routes, tried to reduce Russian concentrations on its eastern shore.

CIVILIAN GOODS: More Forks, Spoons

To extend the life of flatware, the War Production board has author ized the release of small quanting of nickel for plating under silver at chrome knives, forks and spoons. the same time, WPB allowed purchase of alloy steel from distressed stocks for use in manufacturing restaurant and institutional flatuage To bolster dwindling stocks of ;fants' and children's hesiery and un derwear, the WPB granted priorities on necessary yarns for production of such goods.

Priorities will cover cotton knitting yarns for use in making infants' ribbed hose, sizes 3 to 515; infants' half socks and anklets, 3 to 612; children's half socks, 5 to 712, and % and % hase to 912; boys' arew and sinck socks, 7 to 1112, and boys' golf hose, T to 111/2.

Having evidently collided with a lightning flash, 300 wild geese fell from the sky near Galena, Mo.

DEMOBILIZATION: British Plans

Helease of soldiers only when employment is available is being studied by the British government, along with plans for holding workers in war jobs until conversion to civilian production is completed, To assure new industries of ade-

quate labor supplies, the government is considering controlling employment, so as to prevent any rush into old, established lines.

The government's present intention is to start demobilization as soon as the European fighting ends, bot it recognizes that many troops will be needed for necupation of the continent, and many more will be shifted to the Pacific for the war against Japan.

BALL PLAYER

The Antioch News

How many more days, Mummy?

"Tell me. How many more days before Daddy can come home?"

And mother doesn't know. So she answers the same way she's answered a hundred times . . .

"Not so many days . . . we hope. Daddy can't come home to us until the war is over. Until we win, you know."

Nobody can tell the thousands of bewildered little hearts when their Daddies will come home.

Nor the millions of other Americans

when their husbands, or sons, or sweethearts will be back.

The tragic truth is that many of them will never see their loved ones again. Never.

But this we do know

Every minute by which the war can be shortened means fewer lives lost fewer white crosses on a lonely hillside.

Your job is to put every dollar you can possibly dig up into War Bonds.

The fighting equipment bought by your dollars will hasten the day of

Victory . . . the day when the boys come marching home.

Don't slacken your Bond purchases while victory is within our grasp! Never let it be said that while the attack grows stronger on the fighting fronts, we at home failed to back it to the very limit of our ability.

Dig down deeper. Buy extra War Bonds. Help shorten the war by those vital minutes—or days, or months—which mean American lives saved!

KEEP ON BACKING THE ATTACK!
